

OCEAN RESEARCH & CONSERVATION ASSOCIATION, INC.

PRESENTS

Bring Planet Ocean into Your Classroom

An In-Service Training for Middle and High School Teachers

Develop dynamic and impactful STEAM educational approaches that allow you to bring the ocean into your classroom through a series of engaging lessons, place-based learning opportunities, and critical thinking exercises that include:

- 💧 *transformational tools with real-time data and applications,*
- 💧 *a focus on the marine environment, with tie-ins to Florida waterways like the Indian River Lagoon,*
- 💧 *resources designed to make learning relevant and applicable to real-world challenges, and*
- 💧 *building blocks of knowledge that prepare students to be engaged in their future.*
