- Utilities providing water and wastewater services.
 - o General The County has to ensure that a minimum level of Utility Service is provided throughout the County per the Comprehensive Plan Sub-Elements 6(A) and 6(D) under the State Department of Economic Opportunity (DEO). These services are regulated federally through Environmental Protection Agency (EPA) and through the state agencies of Florida Department of Environmental Protection (FDEP) and South Florida Water Management District (SFWMD).

Goals & Objectives:

- 1. Public Works provides administrative support to all Divisions and provides fiscal control of all grant contracts.
- 2. Port of Fort Pierce Update the Port Master Plan documents through extensive public meetings to solicit citizen input. Coordinate with Florida Department of Transportation & the City of Fort Pierce to insure compatibility with State & City regulations.
- 3. Engineering manages the operation and implementation of the Public Works functions that provide the general public with a safe, dependable transportation network, storm water infrastructure, regulatory compliance with State & Federal Regulations & Laws, and County Regulatory permitting in Public Road right-of-ways.
- 4. Road & Bridge Division manages the operation and maintenance of all roadway and stormwater infrastructure including: mowing, pavement resurfacing, canal cleaning, grading of dirt roads and traffic operations.
- 5. Water Quality The Stormwater Program administers the County's Municipal Stormwater (MS4) Permit and implements policies and projects to improve water quality in our Stormwater Management systems (NPDES). The program administers the County compliance with State and Federal Regulatory Programs including National Pollutant Discharge Elimination System (NPDES), Total Maximum Daily Loads (TMDL's) and Statewide Stormwater Regulations, Florida Department of Environmental Protection and South Florida Water Management District.
- 6. Solid Waste To provide an efficient and environmentally safe solid waste disposal facility, and to continue to maximize opportunities for recycling.
- 7. Utilities Complete the design and permitting for the expansion of the North Hutchinson Island Wastewater Treatment Plant from 0.5 to 0.85 mgd. Replacement of another 112 water meter registers in Portofino Shores for increased reporting accuracy, earlier detection of leaks, and cost savings on labor. Complete design and permitting of the North Hutchinson Island emergency water interconnect with Indian River County. Educate our customers through a "No Grease" flyer on the importance of not disposing of household grease into the wastewater stream. Maintain compliance with all regulatory requirements as set forth by our permitting agencies, Environmental Protection Agency, South Florida Water Management District and Florida Department of Environmental Protection. Evaluate and plan for the improvements and expansion of our water,

wastewater, and reclaimed water systems to meet the needs of our current and future customers in compliance with County and State regulations.
